September 2008

**Partnership for Awareness** is an independent nonprofit organization dedicated to providing and supporting educational programming for the community of San Marino regarding alcohol, tobacco, substance abuse, teen violence, and parenting skills, as well as other health and safety issues affecting the youth of San Marino and their families. **PfA** provides support to San Marino schools for educational programs at every grade level, training and support of teachers, parent education, and community programs. With an alliance of parents, students, and community members within San Marino, **PfA** provides support for these programs through its annual membership drive and its volunteers at each school site.

**PfA** is dependent on donations to sponsor programs and events that:

- Promote awareness of substance abuse and other safety issues affecting youth
- Provide elementary and middle school programs for building self-esteem, teaching effective communication, and enhancing choice-making skills
- Provide parent education seminars and access to nationally-acclaimed keynote speakers
- Red Ribbon Week: a national campaign to increase awareness concerning the problems related to the use of tobacco, alcohol, and other drugs.

Examples of programs held during the 2007- 2008 academic year include: Parenting the Teenage Brain, Internet Safety, Nutrition and Vaccines, Institute for Girls' Development, and Easing the Stress of the College Application Process.

For a complete listing of past programs supported by Annual Membership dues, visit PfA's website at [www.partnershipforawareness.org](http://www.partnershipforawareness.org).

Please support **PfA** today by returning your donation\* (in any amount) to school with your student's registration packet, or by mailing it directly to **Partnership for Awareness**.
