

San Marino High School Aquatics Needs your Donations!

Have you seen the improvements to our pool site? *Thanks to your past donations*, in addition to the state of the art scoreboard, we now have a beautiful Titan logo mural painted on the side of the gym *and bleachers on the south side of the pool.*

This year we would like to add bleachers for the west side of the pool.

(This is the new area that recently opened as a result of the moving of the fencing.)

The San Marino High School pool is used year round by the high school students for the boys and girls water polo teams and the boys and girls swim teams. In addition, the community makes use of the facilities for recreation, swim lessons, *and a swim team.*

With your generous donation in any amount, we can make the aquatic facilities one the whole community can be proud of!

Please make your check out to **SMHS Aquatics** and send back with your First Day Package.
